

Sodium Carbonate – NSF/ANSI/CAN 60

Genesis sodium carbonate (soda ash) products have been tested and certified to NSF/ANSI/CAN-60, as direct drinking water additives. The product application under the standard is for pH adjustment and corrosion and scale control. NSF's approval of the Genesis products may be viewed by going to the [NSF](#) web page.

| Product | Maximum Use Level (MUL) mg/L |
|---------------------------------|---------------------------------|
| Soda Ash Grades 50,100,160, 260 | 150 |
| Soda Ash Optipro | 150 |
| Soda Ash A+ (Absorpta Plus®) | 150 |

The certification continues with the product as long as it remains in its original unopened container from either Genesis's plant in Green River, Wyoming or the other listed packaging locations (Wilmington, DE and Ogden, UT).

Read the product Safety Data Sheet (SDS) prior to using the chemical.
